#### AERIAL PHOTO COVER PAGE

*This map is provided for convenience only to show the approximate location of the Property and is not based on a field survey.*

**NOTE TO READER:** *High-resolution aerial photographs are obtained through periodic surveys by low-altitude aircraft. Surveys are repeated at intervals of several years, and their coverage is limited to populated areas. On rare occasions, the air photo on this page will display a black area, or vacant land where buildings now exist. In these cases, the photo happens to be at the edge of the survey coverage area, or it shows land that has been developed since the time of the latest aerial survey. We apologize for these rare instances, which are beyond our control.*
